An innovative solution...

Manufacturer of Bottling & Packaging Machinery for

Soft Drink, Brewery, Distillery, Natural Fruit Juice,
Packaged Drinking Water and Pharmaceutical Industries.

Leading Manufacturer & Supplier of
Advance Filling & Packaging Machinery

www.sbmachines.in

SB Machines has wide ranges of Packaging Machinery for Beverages, Pharmaceuticals and Allied Industry, which well equipped with most advanced features for broad spectrum of industry applications.

Globally Recognized Certification!!

S.B Machines are manufacturer and exporter of Advance Filling and Packaging Machinery with Focus on Automatic Bottle Rinsing-Filling -Capping Machine founded by Mr.Jignesh Mewada and Mr.Hitesh Mewada who have passion for Modern Technology. We symbolizes international quality in India and across world. Our Machines are successfully installed and are working in India as well as South - East Asian, Middle East, Africa and Latin American Countries. We conceive and produces machines responding to the technologies in compliance with the most stringent specifications.

We have pleasure in introducing our self as a highly specialized organization engaged in the manufacturing of wide range of state of the art Semi Automatic, Automatic , Fully Automatic and High Speed Bottling Plant and machinery to cater to the breweries, Liquor, natural mineral and Packaged drinking water, agro-chemical plant and allied Industry.

Our plants have also been approved by engineering groups like...

UDHE, LURGI, TCS, EIL, JACOBS, LLOYDS, SGS, ITS.

QUALITY IS ALWAYS OUR PRIME FOCUS.

Quality is one of the main concerns of our organization's business policy. To deliver high quality products with high efficiency, we have implemented total quality management system in our complete process. We constantly emphasize not only on maintaining our quality standards but also improvising it with time. For this, we have appointed an efficient and experienced team of quality controllers. These personnel are continuously involved in conducting a thorough vigilance on our production procedures. They check our complete range on different parameters of quality to ensure that we are manufacturing our products in compliance with relevant industry standards.

We do check our machines on following parameters before delivering to logistic department :

- DURABILITY EFFICIENCY**
- RELIABILITY HIGH PERFORMANCE**
- SPEED PRODUCTION LEVEL**
- CORROSION RESISTANCE MAINTENANCE LEVEL**

Over the years our technology has matured, focus has sharpened, and commitment to quality solutions has been re-affirmed. What has not changed however is our vision to pursue engineering excellence

- Excellence that facilitates continuous innovation.
- Excellence that ensures product reliability.
- Excellence that enables superior workmanship.
- Excellence that transforms into customer satisfaction.
- Going from strength to strength.
- Specialist in providing total Packaging Solutions.

PET BOTTLES – STILL LIQUID

Auto Rinser/Filler /Capper to fill Water/RTD Products at room temperature with a high level of accuracy. The valve consists of the latest technology with a bottom close design to attain the perfect filling level.

SPEED

Speeds Range from 40 bpm to 200 BPM for pet bottles.

Applications

Mineral Water, Natural Water, Flavoured Water, Alcohol

SR NO	MODEL R / F / C	250ml BPM	500ml BPM	1000ml BPM	2000ml BPM
1	8 / 8 / 4	45	45	40	15
2	12 / 12 / 4	70	70	60	30
3	18 / 18 / 4	120	120	90	45
4	24 / 24 / 8	150	150	120	60
5	30 / 30 / 10	200	200	180	90

PET BOTTLES – HOT JUICE FILLING

Auto Rinser / Filler / Capper to fill Pulpy Juice from 60-95 Degree with a high level of accuracy. The valve has the Latest recirculating technology.

SPEED

Speeds Range from 30 bpm to 150 BPM.

Applications

To fill Pulp Based Hot Juice of Mango, Litchi, Mix Fruit etc

SR NO	MODEL R / F / C	250ml BPM	500ml BPM	1000ml BPM	2000ml BPM
1	8 / 8 / 4	40	40	30	15
2	12 / 12 / 4	45	45	40	20
3	18 / 18 / 4	60	60	50	25
4	24 / 24 / 8	90	90	70	35
5	30 / 30 / 10	120	120	90	45

PET BOTTLES – CARBONATED DRINKS

Auto Rinser/Filler /Capper to fill CO2 based products such as soft Drinks/Energy Drinks etc. at 3-4 Degree with high level of accuracy. The valve comprises of the latest and innovative technology.

SPEED

Speeds Range from 30 bpm to 150 BPM.

Applications

Soft Drink, Beer, Sparkling Water, Soda, Synthetic Carbonated Juices, Natural Carbonated Juice

SR NO	MODEL R / F / C	300ml BPM	350ml BPM	500ml BPM	600ml BPM	1000ml BPM
1	8 / 8 / 4	60	60	40	35	25
2	12 / 12 / 4	80	80	75	70	40
3	16 / 16 / 4	90	90	80	75	50
4	18 / 18 / 6	100	100	90	80	55
5	24 / 24 / 8	140	140	100	80	60

(B) FOR GLASS BOTTLES- FILLING AND CAPPING (ROPP OR CROWN)

Multi Range machine to fill Carbonated-Viscous-Water-Pulpy Juice all Kind of products in Glass Bottles.

SPEED

Speeds Range from 30 bpm to 150 BPM.

Applications

Carbonated, Viscous, Pulpy Juice

(C) Automatic Shrink Sleeve Applicator for Body and Neck with integrated Steam Tunnel.

Machine applies sleeve to the bottle, can do half bottle sleeving or full bottle sleeving & even neck cap tamper proof sleeving the sleeve once inserted in the bottle can later be shrink by a steam tunnel which is coupled with this machine.

SPEED

Speeds Range from 90 to 200 BPM.

(D) Automatic Hot Melt Bopp Labelling Machine for Pet Bottles.

The Wrap around Hot melt labeling machine is a high speed system ideal for round bottles. It is matched with R.F.C machine and the conveyor connecting both is synchronized to ensure smooth flow of bottles. A stainless steel star wheel or feed worm in case of high speed machines will take the bottle and place in front of the label application drum. The label is delivered by the sensor controls whose response time and control speed frequency of the electronic print mark registration system is very fast, and it works 20 times faster than any other Indian Hotmelt label applicator.

SPEED

Speeds Range from 90 bpm to 200 bpm

(E) Automatic Servo Based Sticker Labeller Machine for Round Bottles and Flat Bottles.

The Machine incorporates latest sophisticated Micro Processor Control Label Dispensing system with user friendly Sensing system for Label and Product. The machine is suitable for Labelling on Round Vials, small size of Bottles and other round objects.

SPEED

Speeds Range from 60 bpm to 150 bpm

(H) Chain Conveyor

Chain Conveyors are used to transport filled PET or Glass Bottles they can be single or Multi row with specialized pressure less combiner to combine multiple lane bottles into a single profile to be fed to the filler or labeller. Also multi row inspection systems and Multiple buffers can be incorporated SB Machines conveyors have enormous flexibility and scope so that our customers attain maximum line efficiency.

Automatic Monoblock Servo Based Liner Filling and Capping Machine Gear Pump / Flow Meter Based Technology.

SPEED

Speeds Range from 20 bpm to 80 BPM for pet bottles.

Applications

Ketchup, Thick Shakes, Cough Syrup, Shampoo, Edible oil, Lubricant oil, Squashes, Pesticide etc.

Automatic Servo Based Rotary Sticker Labelling Machine

Rotary Labelling machine can apply Oval, flat surfaces, cylindrical, conical, wrap-around, position label or front and back labels to a wide range of containers at high speeds all the while maintaining simple operator setup, precision product handling and precise label placement accuracy. Rotary Labelling machine can be fitted with one or multiple label applicator that guarantees perfect application of one or multiple self-adhesive labels on the same container at a very great production speed.

SPEED

Speeds Range from 80 bpm to 240 BPM.

Carbonator Mixer with Carbonated Water

BEVERAGE PROCESS with flow meter & Highly sophisticated instrumentation machine will mix water + syrup + CO2 Inline with very high accuracy .

SPEED

Production Speed of 1000 to 5000 Liter Per Hour

WHY SB MACHINES

SB MACHINES is known for giving the very best controls & Automation system with the best quality of electrical/Electronic components coupled with a very experienced Programming team to give maximum machine interlocks & enhancements and hence increase efficiency by using the latest SCADA system thus the whole factory data can be compiled into you mobile phone to give you continuous line updates.

QUALITY

We are fully committed to delivering only the best quality machineto clients. We are strong believers in TQM from Senior Management to factory floor workers each person is committed to delivering only the best.

SERVICE

We provide service support throughout the product life cycle and our skilled technician's works to ensure smooth functioning of our products, wherever they may be .

R&D

Research and Development is the foundation of our business, our innovations frequently define the cutting edge at every step in the manufacturing process. We have developed our own machines in order to bring you optimum benefit

INFRASTRUCTURE

We have extensive infrastructure for fabricating Machinery and spares of 1550 Square Yard at Bakrol Ahmedabad.

HASSLE FREE

Qualified and trained staff is an indisputable advantage. Training seminars - conducted either at our facility or at the customer's premises - prepare your staff thoroughly for the job.

SPARE PARTS

Our extensive inventory of spare as well as wear and tear parts also contributes to constant machine readiness and productivity.

INDUSTRIES WE SERVE ...

We are manufacturers and exporters of packaging, labeling, conveying, printing etc. machines for whoserange of operations span in various industries like Pharmaceuticals, Distilleries & Breweries, Cosmetics &Toiletries, Lube & Edible Oil, Pesticides, Food & Ancillaries etc. We believe in serving quality based machinery to execute quality production .

SOFT DRINKS | CARBONATED BEVERAGE INDUSTRY

READY TO DRINK BEVERAGE | SQUASHES | BREWERIES- BEER

DISTILLERIES - ALCOHOL | AGRO INDUSTRIES - KETCHUP - JUICES -

OR ANY OTHER AGRO PRODUCTS | DAIRY INDUSTRIES - MILK -

FLAVORED MILK PRODUCTS | ENERGY DRINKS PRODUCTS | CONSUMER

DURABLES LIKE SHAMPOO | COSMETIC INDUSTRY NAILPOLISH - KAJAL

- EYELINER | PHARMACEUTICALS | COUGH SYRUPS - LABELING ANY

PRODUCTS | SPECIAL PURPOSE AUTOMATION FOR ANY INDUSTRY -

LIKE FOR PEN COMPANIES | ANY OTHER END OF THE LINE AUTOMATION

FOR ANY INDUSTRY EDIBLE OIL INDUSTRY | ENGINE OIL

INDUSTRY LIKE INDIAN OIL - HPCL - BPCL - SHELL
